# Sarhad Next-Generation Firewall (Sarhad NGFW)

**Sarhad NGFW** — bu korporativ tarmoqlarni himoya qilish, murakkab kiber tahdidlarga qarshi kurashish va yuqori tezlikdagi tarmoq trafiginı tahlil qilish uchun mo'ljallangan yangi avlod tarmoq xavfsizlik devoridir.

# 1. Login

Bu bo'limda siz tizimga qanday kirish haqida ma'lumot olasiz. Kirish jarayoni oddiy va xavfsizdir, bu sizning shaxsiy ma'lumotlaringizni himoya qilishga yordam beradi.

## 2. Dashboard

Bu bo'limda sizning dashboardingiz haqida ma'lumotlar mavjud. Dashboard sizning hisobingizning umumiy ko'rinishini taqdim etadi va sizga muhim ma'lumotlarni tezda ko'rish imkonini beradi. Dashboardda sizning hisobingizdagi faoliyat, statistikalar, va boshqa muhim ma'lumotlar ko'rsatiladi. Bu bo'limda siz dashboardingizni qanday sozlash va undan qanday foydalanish haqida ma'lumot olishingiz mumkin.

The screenshot displays the Sarhad Firewall Network Interfaces dashboard. The interface is divided into a sidebar on the left and a main content area. The sidebar contains navigation links: Dashboard, Network (selected), Interfaces, Routes, NAT, DHCP, Firewall Policies, Security Profiles, VPN, System, and Logs. The main content area is titled 'NETWORK INTERFACES' and includes a '+ Add Interface' button. Below this is a table listing the configured network interfaces.

| INTERFACE                 | TYPE     | ZONE      | VLAN ID | REF | MAC               | MTU  | IP MODE | IP ADDRESSES      | STATUS |
|---------------------------|----------|-----------|---------|-----|-------------------|------|---------|-------------------|--------|
| ens35<br>Index 4026531840 | PHYSICAL | MGMT      | —       | 0   | 00:0c:29:b1:9d:cc | —    | DHCP    | 10.10.101.28/26   | UP     |
| LAN-100<br>Index 1        | VMXNET3  | LAN       | —       | 2   | 00:0c:29:b1:9d:d6 | 9000 | STATIC  | 192.168.100.1/24  | UP     |
| WAN-101<br>Index 2        | VMXNET3  | WAN       | —       | 2   | 00:0c:29:b1:9d:e0 | 9000 | DHCP    | 10.10.101.12/24   | UP     |
| DMZ-200<br>Index 3        | VMXNET3  | DMZ       | —       | 2   | 00:0c:29:b1:9d:ea | 9000 | STATIC  | 192.168.200.1/24  | UP     |
| LAN-trunk<br>Index 4      | VMXNET3  | UNDEFINED | —       | 0   | 00:0c:29:b1:9d:f4 | 9000 | STATIC  | No IP set         | UP     |
| wan-255<br>Index 5        | VMXNET3  | WAN       | —       | 2   | 00:0c:29:b1:9d:fe | 9000 | DHCP    | 192.168.255.30/24 | UP     |

At the bottom left, the 'FIREWALL VERSION' is listed as 1.0.0. The top right corner shows the user 'admin' is online.
